

M-924 DUAL MOTION

SPORT FOR EVERYONE”

SALTER
ACTIVEHEALTH

**M-924 DUAL MOTION THE
FUNCTIONAL TRAINING THAT
YOU WERE WAITING FOR.**

SALTER presents a real sports simulator: M-924 Dual Motion. This tool permits to realize a high quality training which is offering incredible benefits to its users. They will be able to practice sport gestures as the real life.

M-924 Dual Motion personalizes the physic training, adapting the workout to the necessities and specific characteristics of each athlete.

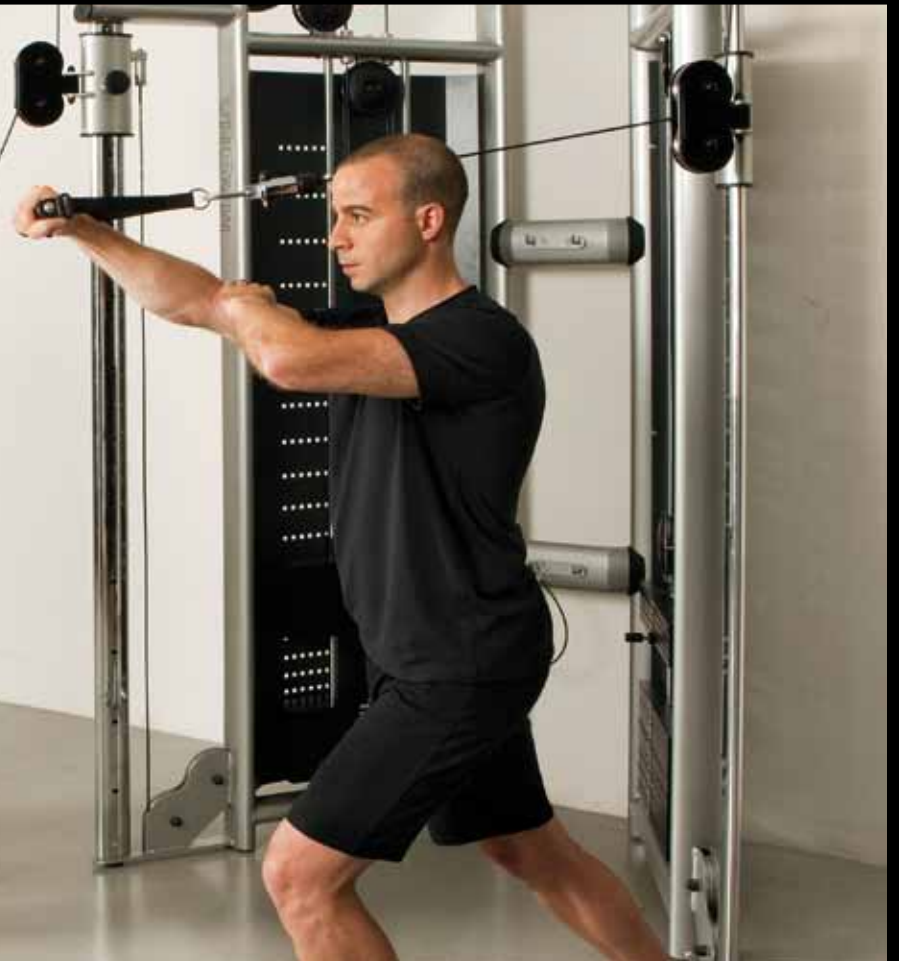

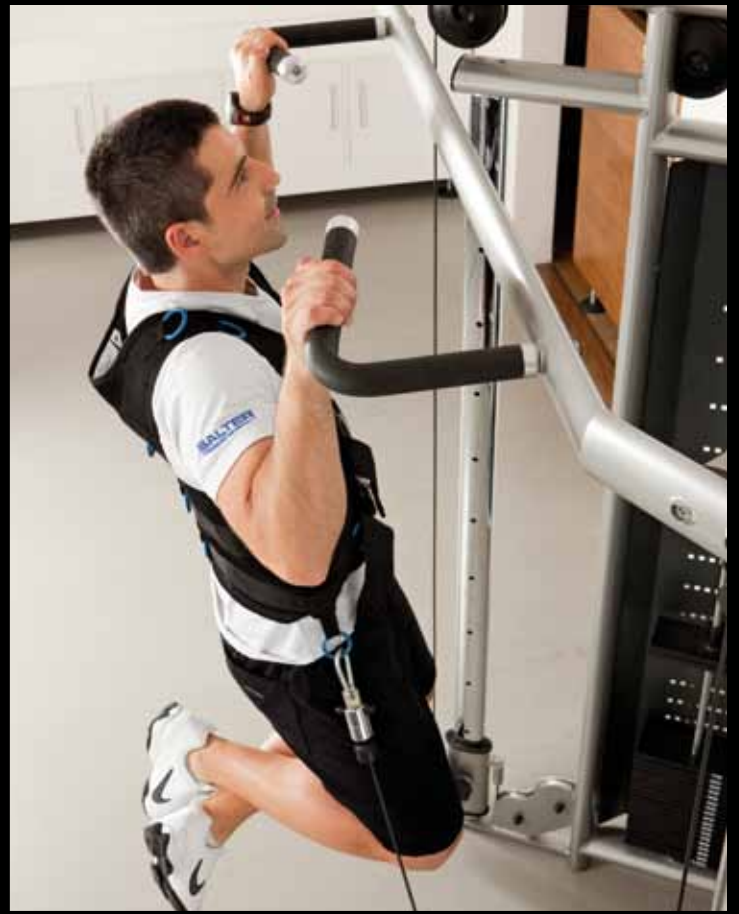

Next to the reality

Performances and versatility that offers the M-924 Dual Motion converts it into a mandatory element in fitness clubs, personal trainer's and rehab centres as well as domestic use, for people who want a specific training.

The wide range of workout possibilities that offers this machine, starts from sporting gestures aimed at improving performance, up to controlled and precise movements required in rehabilitation processes.

The two adjustable and variable pulleys over 180°, with independent workload and a gear ratio of $\frac{1}{4}$, turn the M-924 Dual Motion into a jewel of the functional training.

M-924

Dual Motion

Dimensions:
L. 131 x W. 170 x H. 225 cm.

TECHNICAL FEATURES

- Elliptical frame.
- Transmission by steel wire pre-stretched
- Transmission resented by steel pulleys, mounted on ball bearings.
- 2 independents adjustable pulleys (vertically) in 11 levels.
- Double pulley system which permit to exercise without any limit barrier of movement, managing to vary the body position while the user is training.
- Load reduction gear system $\frac{1}{4}$ which allows a distance of wires more than 5 meters long on each side and facilitates the possibility to perform movements with acceleration without loss of strength in any point.
- Includes accessories to increase the training possibilities as individual handlebars, ankle and support for chin and dips.
- Selector with magnetic safety system.
- Workload: 100 kg on each side with the option to increase it, up to 200 kg on each pulley.
