THE TRADITIONAL CARDIO TONNING BAR & DISC GROUP EXERCISE CLASSES HAS THE SOLUTION WITH THE O'LIVE POWER DISC. SET, WITH AN IMPROVED DESIGN IT RESULTS A MORE VALUABLE PRODUCT PREFERRED FOR USERS AND TRAINERS.

O'LIVE POWER DISK COMPLETE SET

The Power Disk set consists of a pleasant to touch foam-coated bar and rubber coated iron disks. These disks are not fully circular to avoid ground rolling. They have strategically placed holes to allow easy grip and facilitate specific workouts.

• 12-sided design to avoid ground rolling.

- 3 holes for easy and secure grip.
- Soft and comfortable foam coated bar, 3 mm thick, providing more load capacity
 The PVC central ring facilitates the introduction of disks through the bar, while preventing wear.
- Colour-coded for easy weight identification.
- Load capacity 70 kg

The set consists of:

- 2 Orange disks of 1.25 kg
- 2 Red disks of 2.5 kg
- 2 Maroon disks of 5 kg
- 1 Bar of 140 x ø 3 cm and 2.8 kg
- 2 Clamps of ø 3 cm

Ref.: ST13500

O'LIVE POWER DISK LADY SET

The Power Disk set consists of a pleasant to touch foam-coated bar and rubber coated iron disks. These disks are not fully circular to avoid ground rolling. They have strategically placed holes to allow easy grip and facilitate specific workouts.

- 12-sided design to avoid ground rolling.
- 3 holes for easy and secure grip.
- Soft and comfortable foam coated bar, 3 mm thick, providing more load capacity
 The PVC central ring facilitates the introduction of disks through the bar, while preventing wear.
- Colour-coded for easy weight identification.

• Load capacity 70 kg

The set consists of:

- 2 Orange discs of 1,25 kg
- 2 Red discs of 2,5 kg
- 1 Bar of 140 x ø 3 cm and 2,8 kg
- 2 Camps of ø 3 cm

Ref.: ST13600

• QUALITY RUBBER COATED FOR BETTER

- 12-SIDED DESIGN FOR NON GROUND
- 3 HOLES DESIGN FOR SECURE AND • NYLON RINGS FOR EXTRA PROTECTION
- CLEAR COLOR WEIGHT IDENTIFICATION

O'LIVE POWER DISK BAR

We have redefined the Power Disk bar, made now 3mm thick, providing more load capacity without deformation. This allows the performance of exercises with more plate weight and adds variability and difficulty to the session. The bar also incorporates a new foam texture for a better grip and less moisture absorption.

Ref.:	ST13700
Dimensions (cm):	140 x 3
Weight (Kg):	2,8

O'LIVE MUSCLE CLAMP COLLARS

Solid plastic clamps for 50mm diameter bars. The fastening is quickly done by turning the handle. Incorporates rubber inserts for a safe attachment without damaging the bar. It is supplied in pairs. PL17201 Ref.:

O'LIVE 10 KG POWER DISKS

You can increase the difficulty of your training by adding more weight in your workouts using these 10kg disks.

Ref.:	ST13800
Color:	Grey

O'LIVE 30 MM SPRING CLIPS

Chrome clips with plastic ends for 30mm diameter bars. It is supplied in pairs. Ref.: ST13400

O'LIVE SIKLOON

Increase training opportunities by adding the Sikloon, a versatile product that lets you diversify and redesign your Power Disk sessions. It allows you to introduce rotational exercises to the classic training programmes with bars and disks. It offers such a wide range of possibilities that you can do without traditional exercises and program new sessions focusing on core strengthening functional exercises, agility, coordination and balance workouts.

The Sikloon uses disks and bars commonly utilised in gyms and sports centres to help develop its role. Its size is compact and does not take up too much space. For proper floor support and optimal functioning during the sessions, it is recommended to use disks with greater weight in their pivot point to prevente displacement two discs of 5 kg or one of 10 kg are recommended for this purpose. during the Sikloon session a great variety of exercises can be performed by users regardless of their physical condition. At the top of the bar each user determines the level of difficulty by adding the remaining disks from the Power Disk set.

The classic workout done in sessions with bars and disks focuses mainly on strength endurance and cardiovascular work; core stabilizing muscles of the body are partly forgotten.

This muscle group is thoroughly worked with the Sikloon, adding new possibilities in core strengthening training by performing all kinds of functional exercises.

RCISE

Fitness balls or Swiss balls have already become an indispensable product in any training program. They are used in various workouts such as body mind, personal training or rehabilitation. They are useful in balance work, core strengthening, flexibility and co-ordination as they can be very versatile and functional.

An important factor to consider when purchasing a fitness ball is its anti-burst capacity. This means that in case of accidental damage due to small cuts or punctures it will slowly deflate providing greater user safety.

The overall quality of a fitness ball can be determined by several factors: some materials provide a softer touch than others. The thickness will also affect the circular uniformity of the ball and all this will also determine its possible deformation, wear and tear or maximum load when in use. This last element is important if we want to use the fitness ball with weighted elements such as dumbbells or discs.

O'LIVE FITNESS BALL

Manufactured by Flexton silpower[®] exclusive material (patent), the safety factor is especially reinforced. Their look is particularly attractive and they offer a pleasant soft and velvety surface. If broken by a cut or puncture deflate slowly offering a higher safety factor for the user.

- Latex and DOP-DEHP free.

- They can be repaired with cuts of up to 5 mm.
- Manufactured in Europe with CE and medical certification.
- Maximum weight load of 400 Kg

MATS

To be able to choose the best mat we need to look into the context in which it might be used. There are special mats for yoga, pilates, martial arts, stretches or general fitness. The difference lie in the used materials, the available sizes and the thicknesses among other features; always matching the mat's functionality to the required use. The Mats for general use have other features that make them ideal for cardio, stretches, crunches or any other workout that might require the protection of hands, back or knees. The construction materials and sizes may determine their characteristics, which can be quite different from one another. There are also mats made for specific exercices and training sessions.

O'LIVE FITNESS MAT

Made of EVA foam, these mats have excellent durability. Their size and thickness make them ideal for a variety of uses, and perhaps for this reason they are the most versatile mats in the market. They have a flat underside for increased grip and a grooved non-slip upperside. They are suitable for general use, for studio class activities and for fitness rooms. Eyelets are non metal.

Ref.:	CL00600
Color:	Blue
Dimensions (cm):	120 x 50 x 1
Eyelets distance (cm) :	35

O'LIVE VYNIL MAT

Made of PVC, one side is non-slip whilst the other side is smooth. They are 9,5 mm thick with a rather soft touch and their dimensions are small. These characteristics make them light and easy to clean, as well as suitable for general use in instructor lead activities and fitness rooms.

Ref.:	CL00500
Color:	Silver Grey
Dimensions (cm):	100 x 50 x 0,9
Eyelets distance (cm) :	39,5

O'LIVE FITNESS MATS MAT KIT WITH ADJUSTABLE HANGER

Kit composed of 20 Fit Mat with adjustable hanger (MU04100).

Intensity:	Light	Medium	Strong	Extra Strong
Color:	Yellow	Green	Red	Blue

O'LIVE ELASTIC BAND

The elastic bands add resistance to any exercise. The bands can be used by anyone regardless of age and physical condition. They are 15 cm wide and 250 cm lenght. Available in 4 intensities differentiated by colour.

Ref.:	EL13001	EL13002	EL13003	EL13004
Intensity:	Light	Medium	Strong	Extra Strong
Color:	Yellow	Red	Green	Blue

O'LIVE LOOPS

The elastic loops can be used for a variety of applications, particularly for lower body work when aiming to gain strength and balance. They are available in different colour coded intensisties. Lenght 28 cm.

Ref.:	EL06201	EL06202	EL06203	
Intensity:	Medium	Strong	Light	
Color:	Red	Green	Yellow	

O'LIVE TUBES/ ROPES RACK

Standing rack, made in in oval steel tube, suitable for storing resistance tubes or jump ropes. Tubes not included.

Ref.:	MU11900
Capacity:	80 u.
Color:	Grey

O'LIVE SINGLE ELASTIC COMPACT RACK HOLDER

It is suitable for storing up to 10 elastic tubes. Also suitable for other materials such ropes, hoops, etc. It is screwed into the wall at desired heigh.

Ref.:	MU04300
Dimensions (cm):	15 x12x 24,5
Capacity:	10 u.

O'LIVE MULTIPLE ELASTIC COMPACT RACK HOLDER

It is suitable for storing up to 40 elastic tubes. Also suitable for other materials such ropes, loops, etc. It is screwed into the wall at desired height.

Ref.:	MU04400
Dimensions (cm):	15 x70x 24,5
Capacity:	40 u.

O'LIVE BODY BAR

Steel bars covered with foam for a softer feel. Many people find them much easier to use than regular disks bars. They can be used to exercise any muscle group in your body. Coated with high quality foam. Colour-coded for easy weight identification. The square shape of the side plugs prevents accidental rolling on the floor. Available in 6 different weights. Length: 120 cm.

Ref.:	ST13201	ST13202	ST13203	ST13204	ST13205
Weight (Kg):	2	3	4	5	6
Color:	Yellow	Orange	Red	Garnet	Dark Grey

O'LIVE BODY BAR COMPACT RACK

Rack for storage of the body bar. Made of compact material seeking a more innovative design. Its shape can be placed along the wall for better use of available space. Each body bar is placed in rows compartmentalized for better management. Suitable for any measure of body bar. Body bars not included.

Ref.:	MU02400	MU09600
Dimensions (cm):	100 x 66 x 40	140 x100x 51
Capacity:	30 u.	20 u.

FUNCTIONALDESIGNCUSTOMISABLECOMPACTThe material is stored in an
orderly and accessible way.It is made of steel with a decorative panel known as Compart
hp. It is freestanding, resistant, hygienic and easy to clean.The panel design allows for the possibility of customizing the rack with
the Club's or Sports Centre's corporate image using vinyl stickers.Its reduced size allows for a gain
of available space in the room.

SLIDERS

O'LIVE SLIDERS

The O'Live Sliders are a versatile product that can be used in a stand-alone Slider class or in an existing class format. They provide an unstable training surface that allows you to simulate many slideboard exercises. You can work multiple muscles while engaging core stabilization throughout the range of motion; they transform exercise movements into smooth, graceful lines of flowing motion.

O'LI

• Provides a new stand alone group format class.

- Enhances your existing class format.
- Diversifies your choreography.
- Incorporates balance, flexibility, strength, core and cardio drills.

• A perfect addition on personal training sessions.

Note: Not useful for rubber flooring

Ref.:	FI02701	FI02702
Color:	Grey	Grey
Others:	Single	Double

Kettlebell are weights made of iron that resemble a cannonball with a handle. Its unique shape results in their centre of gravity to be slightly offset from the grip, making them ideal when performing ballistic exercises. The Kettlebells are used for different fitness goals such as losing weight, gaining muscle, or for strength development. They are one of the most flexible and effective functional training products available today. are used in training programs that include explosive movements which combine cardio and strength workouts. Thanks to its displaced centre of gravity the kettlebells are harder to control, resulting in increased demands of agility, trunk stabilization and co-ordination. The weight of the Kettlebell depends on the fitness level of the user.

O'LIVE COMPETITIVE KETTLEBELLS

The O'Live Competition kettlebells are all made to the exactly same dimensions troughout the weight range. This means that the kettlebell will always rest on the same part of your forearm no matter what weight you are using ensuring your technique remains consistent throughout your routine.

• All weights are same sphere size of Ø 210 mm according to standard measurements.

- Made from cast steel, stronger than cast iron Kettlebells.
- Perfectly smooth regulation 33mm polished handle.
- Colour Coded for easy weight identification.
- Stable base for optimum floor exercises.

Available in sizes from 8kg to 36kg in 4kg increments.

Ref.:	EN38901	EN38902	EN38903	EN38904	EN38905	EN38906	EN38907
Weight (Kg):	8	12	16	20	24	28	32
Color:	Pink	Blue	Yellow	Purple	Green	Orange	Red

FUNCTIONAL TRAINING // STRENGHT

O'LIVE RUBBER KETTLEBELLS

They feature a chromed steel handle and rubber coating which is stronger than vinyl. The handle is completely smooth, and soft to the touch. They are commonly used in fitness centres and in personal training spaces.

- Manufactured in solid cast iron, perfectly balanced.
- Available in weights of 4 kg up to 32 kg., with 4kg increments.
- The flat base allows for greater stability in floor exercises.
- Very visible colour embossed identification.
- Chromed handle that provides extra comfort and safety.
- The design of the handle allows working with both hands.
- The rubber will not scratch or damage benches or floors.

Ref.:	EN19601	EN19602	EN19603	EN19604	EN19605	EN19606	EN19608
Weight (Kg)	4	8	12	16	20	24	28

O'LIVE CAST IRON KETTLEBELLS

They are made entirely of cast iron with a paint finish. Their handle is slightly grooved, and they look rather coarse but weight identification provided by the colour makes them very easy to use. They have a totally flat base that affords them with great stability, making them very useful for certain exercises: for example, they are perfect for cross training applications and in traditional fitness rooms.

- Manufactured in solid cast iron, perfectly balanced.
- Available in weights of 4 kg, up to 32 kg, with 4kg increments.
- The flat base allows for greater stability in floor exercises.
- Optimal grip design that provides extra comfort and safety.
- The design of the handle allows working with both hands.

O'LIVE KETTLEBELL RACK

Rack made of oval steel tube suitable for storing 10 kettlebells. Kettlebells not included.

Ref.:	MU06400
Dimensions (cm):	53 x129x 81
Color:	Grey

O'LIVE CAMUFLAGE POWER BAG

The Camuflage Power Bags will be useful to increase the challenge of basic weightlifting exercises like squats, deadlifts and presses. The displaced centre of mass increases the difficulty, ensuring a more intense workout. They are made of nylon with double stitching in critical points. Inner sand bags include a double velcro closure to prevent leakage. Handles are fixed in 3 positions to allow countless variations and are made of silicon filling, which allows them to mould to your hand during work, while maintaining stiffness and durability.

The Original Camuflage Power Bag measures 69,5 x 23,5 cm and is filled with 3 x 10 kg inner bags of 65 x 20 cm, holding up to 30 kg.

Ref.:	EN39700
Dimensions (cm):	49 x36x 74
Weight (Kg):	30
Others:	Original

O'LIVE FUNCTIONAL BAG

It is used to improve strength, muscle endurance, and power. It is a great product for energy expenditure and metabolic acceleration and is usefull in weight loss programmes. It can be tossed and caught like the medicine balls can, and they are useful in co-ordination, proprioception and core stabilisation workouts.

• Made of tough, firm and strong high quality synthetic leather.

- Colour coded for easy weight identification.
- Compact size and equal for all weights to increase functionality.
- 6 Rubber handles for added versatility during exercise.
- · Supplied with inner sand and foam padding.

O'LIVE SAND DISK

Made of neoprene fi lled with sand inside, is a versatile functional product that can be used as a kettlebell, dumbbell or medicine ball in a safer and efective way. Like a free weight product, you can perform a full body workout involving arms, abs, glutes and grip strength. Ideal for training circuits or HIT is soft and safe for the user and floor.

Ref.:	EN44901	EN44902	EN44903	EN44904	EN44905	EN44906	EN44907
Weight (Kg):	2	4	6	8	10	12	15

Training with medicine balls is common in athletes that want to improve their athletic performance. They have become increasingly popular among professionals because of its benefits when incorporated into a fitness program focusing strength, power or during rehabilitation.

Depending on use and the type of exercises to be performed, some balls are more suitable than others. Their endurance, touch, weight and size vary according to their function.

O'LIVE FUNCTIONAL BALL

The Functional balls are 39 cm of diameter with a textile surface, which is soft and pleasant to touch. Its main feature is impact absorption which facilitates continued use by several users. They have been used by boxers when focusing on core and abdominal training. Although they can be used in a variety of exercises, they are ideal when users throw the balls to each other in movements involving trunk stabilization. They don't rebound. They are suitable for cross training and High Intensity workouts.

O'LIVE MEDICINE BALL REBOUNDER

The medicine ball rebounder is an ideal and fun way to train speed, power and balance. Simply throw a medicine ball and try to catch it, you will improve reflexes and enhance core muscles while burning calories.

Ref.:	EN19400
Dimensions (cm):	80 x ø 92

O'LIVE FUNCTIONAL TYRE

The Functional Tyre is a non conventional's product but it is very interesting with many traning possibilities. You can perform a lot of pushing-pulling functional exercises and dead lifts. The design is very attractive, including a tyre covered by a PVC jacket and rivetted handles to help performance.

Ref.:	EN45500
Dimensions (cm):	Ø 105
Weight (Kg):	80

O'LIVE MULTIPLE TRIPLE FT RACK

Useful rack to store the products used in the TRIPLE FT training program. The functional bags, functional balls, kettlebells and Shoulder bags are the necessary and indispensable products for a good functional training program. O'live Fitness facilitates the performance of the method by using a format with all necessary equipment, storage and program.

It incluyes:

- 1 Functional bags shelf, 1 Functional balls shelf, 1 Kettlebells shelf and 1 Shoulder bags shelf. (Material not included).

Ref.:	MU16500

O'LIVE MULTIPLE RACK COLUMN

Support for holding various shelves according to the products stored. Each module requires two supports. When annexed module is required, only one extra support is needed for the expansion.

MU16400 Ref.:

O'LIVE MULTIPLE RACK BALLS SHELF

Suitable for Multiple rack or any O'live Functional Station. Each shelf can store:

- Functional balls (4 units)
- Medicine balls (6 units)
- Fitness Balls (2-3 units)

O'LIVE MULTIPLE RACK BIG FLAT SHELF

Shelf to store dumbbells or any product that requires a large base as camouflage bags, ab mats, etc. Suitable for Multiple rack or any O'live Fitness functional station.

Ref.:	MU15700

O'LIVE MULTIPLE RACK PLATES/BOSUS SHELF

MU16300

O'LIVE MULTIPLE RACK FUNCTIONAL BAGS SHELF

Shelf to store 5 functional bags. Suitable for Multiple rack or any O'live Fitness functional station.

O'LIVE PULL UP BAR

Wall mounted pull up bar. It is manufactured in black steel. You can join multiple units in line. You can convert the pull up bar in a workstation adding superbands or suspension products like O'SKY. Its maximum load is 500 kg.

Ref.: EN20600 Dimensions (cm): 55 x126x 85

O'LIVE PULL UP BAR EXTENSION

The wall-mounted O'Live Pull-Up Bar (EN20600) can be extended as far as you like. Each extension measures 1220mm in length and consists of an additional support Bracket and an additional 1170mm pull-up bar (32mm diameter).

Ref.:	EN40000
Dimensions (cm):	122 x 55 x 85

42

O'LIVE MULTI-GRIP PULL UP BAR

Chin-ups are one of the best upper body resistance exercises. There is no other exercise that can equal its functional value, as not only do they develop gripping strength and back, biceps, abdominals and chest muscles, it is also an excellent full body workout. The bar features multiple gripping options to allow different exercise options to the user.

- Increases overall upper body fitness and strength with chin-ups and pull-ups.
- Provides a 5 degree angle to create the optimum biomechanical position for your wrist.
- Bottom slot hole to allow the use of all type of suspension training kits.
- Features rubber handles for optimum grip, comfort and total safety.
- Designed to ensure suitable wall clearance.
- Easily attached to any solid brick or stone surface.
- All fixings and instructions included.
- Back plate measurements: 225 x 225 mm. EN41000

Ref.:

Dimensions (cm): 48 x121x 23

O'LIVE STEEL SUSPENSION RINGS

The suspension rings are lightweight and portable and can be setup in seconds. They are useful for dozens of exercises, from the basics like push-ups to more difficult ones like Iron Crosses or Dips. They are made of steel and they have a nylon adjustable strap with numbering. Grip: Ø 2,8 cm.

Ref.:	ST13100
Dimensions (cm):	ø 23

O'LIVE WOOD SUSPENSION RINGS

The suspension rings are lightweight and portable and can be setup in seconds. They are useful for dozens of exercises, from the basics like push-ups to more difficult ones like Iron Crosses or Dips. They are made of wood and they have a nylon adjustable strap with numbering. Grip: ø 2,8 cm.

Ref.: EN33300 Dimensions (cm): ø 23

O'LIVE CLIMBING ROPE

The Climbing rope incorporates a metal locking ring at one end that allows anchoring of the rope to the ceiling or a wall mount. With a diameter of 38 mm, it is made of sisal string for optimal grip.

Ref.:	ST14400
Dimensions (cm):	ø 3,8 x 600

O'LIVE PULL-UP ROPE

The pull-up is a great upper body exercise that involves back, shoulders and abdominals, while developing gripping strength. The rope allows different hand positions to increase gripping demand and provide a more natural line of pull. The pull-up rope can be used for a varity of exercises: for example it can be looped around the handle of a kettlebell to increase the lever length and help teaching proper exercise execution, or it can be also attached to a SuperBand. The rope can be used for upper body pulling and pushing exercises along with a number of other rotational exercises.

O'LIVE GYM SLED The O'Live Gym Sled is the ideal tool to increase your strength and endurance, giving you the ability to tone and enhance your entire body with just one piece of workout equipment. Flat bottom and solid steel skis allow for smooth pushing/ pulling on multiple surfaces. The sled weights and uses your existing bumpers or olympic discs for a more intense workout. Two types of different handles for pushing exercises and multi-point attachments to use with heavy harness (sold separetly). It includes a low friction base to allow you to use the sled in indoor rubber floors.

Ref.:	EN39300
Dimensions (cm):	99 x101x 61
Weight (Kg):	42

The O'Live Gym Sled Harness is made of resistant nylon and can be used for all sled pulling and speed training. Featuring wide padding to distribute weight comfortably and comfort.

Ref.: EN39400

O'LIVE BATTLE ROPES

The benefit of training with combat ropes is double: They provide an intense cardiovascular workout while working gripping strength and upper body endurance. Another benefit associated with battle rope training is the important role the core is playing in coordinating and maintainng movement execution. Yet another advantatge is the fact that it does not require a high level of skill or physical condition; basic instructions are enough to get started. The O'Live battle rope is made of 38 mm safe and non-abrasive black braided nylon and PP. The ends incorporate a heatseal finish that prevents the rope from fraying and provides comfort.

ROPE TRAINING & ANCHORING GUIDELINES:

• Training Surface • Training on rough or abrasive surfaces will cause major friction and can damage ropes. This is not the recommended use and is not covered by warranty. We recommend training on smooth surfaces such as training mats, hardwood flooring, rubberized flooring or carpets.

• Fraying • Slight surface fraying can happen with regular use depending on the training surface used. This type of fraying is normal wear and tear and will not affect the rope. Any other major fraying is usually caused by improper wrapping. We do not warranty any rope against fraying.

• Wrapping • If wrapping ropes, do so only around a smooth, round surface. A square, abrasive or sharp edge will cause rope to be cut and frayed and nullifies the warranty.

· Anchoring · The recommended method for anchoring all ropes is to use our inexpensive Rope Protector. This will protect your rope from damage.

· Covered ropes are designed and warranted for indoor use only on non-abrasive, smooth surfaces.

· Do not wrap a covered rope around a pole or other object as this will damage your cover. Friction burns are not covered by warranty.

O'LIVE ROPE COMPACT RACK HOLDER

Wall bracket suitable for storing the training rope into a loop.

Ref.:	MU10100
Dimensions (cm):	15 x75x 70

O'LIVE BATTLE ROPE ANCHORING PROTECTOR

The rope anchoring protector is an essential element when using battle ropes. It protects the battle rope from friction and fraying and increases the overall length for added difficulty. It is resistant, durable, effective and inexpensive and will increase the life span of the battle rope. It is easy to adjust and remove with the use of Velcro straps and it fits any battle rope diameter. The kit includes a protector, two straps and one carabiner.

Ref.: EN34400

O'SKY

The O'sky suspension trainer by O'live Fitness is a versatile, easy to use and efficient for anyone regardless of age or physical condition. Use your own body weight to provide resistance and offer many options for the whole body workout. By simply changing the angle which you perform the exercise, you can work any muscle without stopping. The O'Sky activates your abdominal zone in every exercise, increasing flexibility and ensuring intense muscular and cardiovascular workout.

O'LIVE O'SKY SUSPENSION TRAINER

The power of rotation: The O'Sky incorporates a pulley that allows bilateral exercises and exercises involving other functional movement chains. In addition, instability provided by the pulley is causing greater activation of the abdominal muscles, and provides a greater challenge for advanced users.

Versatile: The pulley can be locked, allowing also make unilateral exercises, useful for beginners to get a lower difficulty of the exercises.

Universal grips: Another aspect of differentiation is the multidisciplinary grips. These allow multiple grip options being suitable for the hands, feet, and forearms. Its design allows different hands positions depending on user preferences, and includes a professional quality rubber handle for generic use.

Ease of use: The O'Sky is easy to use; the length is simply regulated by setting the grips of one of the 3 levels available through the aluminum carabiner in each handle. The lock of the pulley is easily done by an industrial quality secure pin.

Safe: The O'Sky provides a security maillon by fastening screw, this allows take it down easily, or if its screwed, impossible to take down without tools.

Ref.: EN44300

SUSPENSION TRAINER CEILING MOUNT

This support is designed to set the suspension trainer on the roof or wall. This requires one solid surface, not hollow for optimum anchorage.

Ref.: EN43700

Capacity:	2 users	4 users	6 users	8 users

O'LIVE WOOD ADJUSTABLE PLYOMETRIC BOX

Plyometric wooden box. A key feature is the ability to adjust its height. Depending on which side it is positioned, it allows three different heights: 50 cm, 60 cm or 75 cm. This type of plyometric box is commonly used in cross training and it is also suitable for other types of exercises which require a high base.

Ref.:	EN32900
Dimensions (cm):	60 x50x 75

48

O'LIVE SOFT ADJUSTABLE PLYOMETRIC BOX

The 3 in 1 soft plyometric box gives the opportunity to adjust its height, by just changing the side it is placed. It allows three different heights: 50 cm, 60 cm or 75 cm. Commonly used in cross training, it is also suitable for other types of exercises which require a safer platform due to its soft and dense foam construction.

The box is easy to move thanks to its light weight and it is the best option for beginners and overall users to avoid some of the most common injuries of plyometric training.

Ref.:	EN39000
Dimensions (cm):	60 x50x 75

O'LIVE ELITE PLYOMETRIC BOX

O'live Fitness Elite plyometric boxes have a solid steel structure and larger working area, resulting in a greater functionality, stability and security. It incorporates rubber feet and landing platform to avoid possible landslides, as well as wheels for easy movement. Size of working area: 700 mm x 600 mm.

Ref.:	EN43301	EN43302	EN43303
Dimensions (cm):	300 x700x 600	450 x700x 600	600 x700x 600

O'LIVE SAFE PLYOMETRIC BOX Foam platforms are indicated when safety is the premise. Such a soft material

Foam platforms are indicated when safety is the premise. Such a soft material minimises the consequences of possible stumbling. For this reason they are normally used to perform explosive jumps at great height or for the less experienced user. They are available in different heights and they can be stacked one on top of the other and held together with Velcro.

Ref.:	EN33001	EN33002	EN43900	EN33003
Dimensions (cm):	15 x76x 90	30 x76x 90	45 x 76 x 90	60 x76x 90

O'LIVE PLYOMETRIC PLATFORMS

They are lightweight and trapezoidal and can be stored one on top the other without taking up much space. On top of this they feature a rubber surface for superior grip and cushioning. It is ideal for consecutive jumps at different heights. FLOWIN[®] SPORT

The Flowin concept consists of functional exercises focusing on core stability, mobility, strength, balance, speed and power. By using a rectangular base plate and various pads effective friction is generated in this training that can be adjusted safely by the user by simply altering the degree of pressure. Using their own bodyweight as counterweight users can regulate the degree of friction and thus the difficulty level. Sport models are suitable for the end consumer. The plate can be rolled and includes a carry bag, 5 pads (2 x foot pads, 2 x hand pads and 1 x knee pad), a manual and a DVD with three different training programs.

Ref.:	EN06600
Dimensions (cm):	100 x 140
Color:	White

FLOWIN[®] PAD KIT

Additional Flowin® pad kid for the gym or to use at home. This kit includes five pads (1 knees, 2 hands and 2 feet). Ref: FN07000

LOUMET BALANCE BOARD

Unlike traditional balance boards, the Loumet balance board incorporates a nonslip circular relief on the surface for increased gripping capacity. In addition, its slightly convex shape allows greater user support. The rounded corners allow a safe hand use when doing ground work. The Loumet balance board is built in one piece, making it extremely durable, strong, resilient and able to withstand up to 350 kg.

Ref.:	EN29000
Dimensions (cm):	8 x ø 37
Color:	Blue

FLOWIN[®] PRO

The Flowin[®] concept consists of functional exercises focusing on core stability, mobility, strength, balance, speed and power. By using a rectangular base plate and various pads effective friction is generated in this training that can be adjusted safely by the user by simply altering the degree of pressure. Using their own bodyweight as counterweight users can regulate the degree of friction and thus the difficulty level. The Flowin Pro model's plate is designed for professional environments. It cannot be rolled. It incorporates 5 pads (2 x foot pads, 2 x hand pads and 1 x knee pad).

LOUMET FITNESS BALL PRO

The Loumet Fitness ball Pro is one of the most reliable, safe and durable balls in the market. The Loumet manufacturing approach is making premium quality balls that in terms of their strength, deformation, wear & tear and ability to return to its original form, always reach the highest standards. The Loumet Pro outperforms its competitors while providing a nice texture and high satisfaction. Its burst strength goes up to 350 kg static, being useful for dumbbell training.

Ref.:	BA08001	BA08002	BA08003
Dimensions (cm):	ø 55	ø 65	ø 75
Color:	Grey	Grey	Grey

LOUMET STEDIBALL

The Stediball is a high quality ball filled with 1 kg of specially selected material and designed to move in different directions. It can be used both on the ground and in the air. When you lift and move the Stediball, its interior material moves freely to activate core muscles and stabilizers in a new and challenging way. The weight of the material inside the Stediball allows unique exercises dynamic routines and improves performance while increasing stability and security as it is stable on the floor. The fact that it does not move freely Stediball makes it ideal for gyms, clinics and studios. It comes with an exercise book for a quick start. The Stediball is burst-resistant of up to 150 kg.

Handle diameter (mm):	17	25	29	32	32	35
Large (cm):	38	42	46	50	56	60

This rack can store 1 pair of Clubbells of each weight. Made of Steel, it comes with a rubber base for added protection.

Ref.:	MU12000
Capacity:	6 pairs (1 pair of each weight)

O'LIVE RUSSIAN BELT

The Russian belt is a very simple to use product. You must have a support (Wall bar, bracket) allowing static and dynamic exercises for lower body strength: femoral biceps area, quadriceps and hamstrings. You can perform unconventional exercise positions aiding recovery, preventing injures, and improving strength and flexibility. The O'Live Russian belt is manufactured with a metal buckle for quick and easy adjustment adding versatility and comfort.

Ref.: EN29100

O'LIVE STORAGE CAGE

Cage made of steel suitable for storing various materials. You can store several fitness bags (or Shoulder bags), as well as boxing equipment such as gloves, pads, etc. Wheels included.

Ref.:	MU09900
Dimensions (cm):	78 x135x 65
Color:	Grey

O'LIVE PRO PUSH UP BARS

Push-ups are an effective upper-body exercise that builds muscular strength and endurance in the chest, shoulders and triceps. The Push-up bar offers a way to alter the classic style increasing intensity and helping with the discomfort sometimes experienced with these types of exercises. The O'Live Pro Push-up bars will help you neutralize the wrist angle so there is less pressure on the joints. Without that pain, you might be able to perform more push-ups than you normally might, with your palms flat on the floor.

- Designed to relieve stress on your wrists and hands.
- Sturdy steel structure for comercial use.
- Durable Vinyl handles which provide greater user comfort.
- Round shaped with rubber base for maximum stability and grip.

Ref.: EN36300

O'LIVE CORE WHEELS

Core Wheels are a new dynamic core strength trainer that will destabilize your movements causing your shoulders, torso and hips to work harder. You can strengthen the entire core and improve flexibility with more push up variations. It is appropriate for all fitness levels.

Ref.: EN33700

The Ab-wheel can be used for a multitude of dynamic upper and lowerbody strength training exercises to develop core strength and increase power in the chest, shoulders and arms. It improves power and balance while preventing injuries.

Ref.:	EN33800

O'LIVE TRIPLE JUMP ROPE

With a new handle design and addition of a metal pin we have developed a resistant product that will last for many years. Jumpers use this type of rope to jump 5-6 times per second. It turns exceptionally well and it is very light allowing not only for fast jumps but also allows the user to perform double and triple jumps. You can easily adjust the length.

Ref.:	ST14300
Color:	Black

O'LIVE JUMP ROPE

The O'Live Jumping Rope includes a heavier wire, offering a new and better feeling by making it easier to know the location wire during its use. The jumping rope has other improvements as well: the handles include rolling-bearing to add more speed. This makes the difference when you are trying to do as many double-jumps as possible in just one set. The handles are made of nylon, reinforced with glass fiber, to ensure high resistance. The wire, made of steel, has a nylon coating to improve protection and to avoid unwanted knots. It can be adapted to tall users (max. 2 m) and it can be easily adjusted with a Philips screwdriver.

Ref.: EN43800

O'LIVE RESIST BELT

The Resist belt increases the number of available exercises during a training session. It incorporates a buckle fastener which allows a quick and easy attachment. Its metal rings safely anchor the elastic cords; they incorporate neoprene around them for greater user comfort. Working with the belt will give you a wider variety of exercises in your workouts and will allow you to perform exercises like squats in its many variants, adding new challenges and developing new skills.

Ref.: ST20600

O'LIVE RESIST HARNESS

Universal and adjustable harness padded for comfort. It features a buckle behind the chest and includes fixed anchor rings on the back. Its design allows use in a variety of exercises.

Ref.: EL13800

O'LIVE RESIST PULL BELT

The Resist pull belt can be used for the heaviest loads and the most energetic training. It is designed for movement in any direction up to 240° (frontal and lateral) with no tension on the adjusting buckle. It is padded with neoprene for comfort. It can be used with Resist battle ropes, Resist tubes, straps or any Speed sled.

Ref.: EN45000

O'LIVE RESIST ARM STRAP

EN45100

The arm strap increases the number of available exercises during a training session. It has a velcro strap which allows a quick and easy attachment. Its metal rings safely anchor the tubing. Working with the arm strap will provide you with a wider variety of upper body exercises allowing you to exercise the upper body in its many variants, adding new challenges and developing new skills.

O'LIVE RESIST ANKLE STRAP

The ankle strap increases the number of available exercises during a training session. It has a velcro fastener which allows a quick and easy attachment. Its metal rings safely anchor the elastic cords. Working with the ankle strap will provide you with a wider variety of lower extremity exercises in your workout and will allow you to exercise the lower body in its many variants, adding new challenges and developing new skills.

RESIST BATTLE ROPF

O'LIVE RESIST BATTLE ROPE

The O'Live resist battle ropes are incredibly versatile products that can be used as traditional combat ropes, as speed resistors, to move backwards, lateral movements, or rotational movements. Incorporating the resistance provided by the elastic cords you can modify the training adding traditional combat ropes and achieving muscle contraction in all three planes of motion. The ropes are secured thanks to the nylon protective cover and they can be used for anyone regardless of their fitness level. They are 6 meters long at rest and they can reach a length of a maximum of 12 meters.

Ref.:	EN32200	EN37700
Intensity:	48 Kg.	35 kg

O'LIVE CARABINER

Necessary to allow binding of various products. Lightweight aluminum carabiner alignment, cold forged, with straight finish. Aperture 18 mm.

 Dimensions (cm):
 5,8 x 10,5

 Color:
 Red

O'LIVE SPEED RESIST KIT

Set consisting of a 6 meter Resist battle rope, a Resist harness, an anchor strap, two Carabineers and a storage bag. The speed resistor is designed to help athletes accelerate faster and with greater power. The more the elastic cord is stretched, the more resistance it will provide to the user in their advancing motion. The elastic is 6 meters long and it can reach a maximum length of 12 meters.

Ref.:	EL11700	EL12100
Intensity:	48 kg	35 kg

O'LIVE BASIC RESIST KIT

It is suitable for all users that want to develop upper body strength and power. The set includes two 6 meter Resist battle rope, 2 anchor straps, 2 carabineers and 2 storage bags.

Ref.:	EL12200	EL12300
Intensity:	48 kg	35 kg

O'LIVE MMA RESIST KIT

Set consisting of a 6 meter Resist battle rope, one Resist bar, one Resist pull belt, one anchor strap, two carabineers and a storage bag. The set allows multiple drills and core training exercises useful for martial arts enthusiasts.

Ref.:	EL12400	EL12500
Intensity:	48 kg	35 kg

SUPERBANDS

O'LIVE SUPERBANDS

The Superband is a very versatile tool for adding resistance to flexibility, weight lifting and bodyweight training. A higher quality band does not exist. It is ideal as an aid for doing pus-hups and dips. All the bands are made of 100% natural layered latex to ensure a long lasting product. Superbands are 104 cm long and 0.95 cm thick. Six different widths provide the current range of intensity.

Ref.:	EL08301	EL08302	EL08303	EL08304	EL08305	EL08306
Intensity:	X Light	Light	Medium	Heavy	X Heavy	XX Heavy
Color:	Red	Black	Yellow	Green	Blue	Orange

O'LIVE SUPERBANDS 2 M

The 2 meter long superbands allow the execution of exercises with a longer range of motion than the normal standard superbands. You can attach them to a point and perform a wide range of flexibility, strength or athletic conditioning exercises with an added resistance to displacement.

O'LIVE FUNCTIONAL HURDLE

The O'Live Functional Hurdle is a simple piece of equipment that offers a wide range of strength training exercises. You can work arms, chest, back and core muscles using your own body weight and you can also use it for sports agility training. Sold in pairs.

Ref.:	EN39200
Dimensions (cm):	73 x60x 38
Color:	Red

O'LIVE WEIGHT VEST

Weight vests are useful to increase load during cardio-vascular exercises, for plyometric and agility drills and body-weight exercises. The O'live weight vest is rugged, durable with fully adjustable strap to ensure it fits perfectly to your torso. The Vest is weighted with 1.1kg weights, each of which is secured snugly into its own Velcro pocket. The 10 kg vest has got 5 pockets on the front and 4 on the back to ensure even weight distribution. The 20 kg vest has got 9 pockets on the front and 9 on the back to ensure even weight distribution. You can quickly and easily load or unload the weight to suit your needs.

Ref.:	EN32801	EN32802
Weight (Kg):	10	20

O'LIVE GHD

The GHD provides a platform for flexion and extension exercises on the trunk. It can be used for hip and back extension to condition the posterior chain, and in the supine position perform sit-ups.

The O'Live GHD provides excellent stability, eliminating all movement thanks to fully adjustable foot holders. The platform is a rolling pad that allows a much smoother transition into extensions and the resting pad under the rolling pad provides a stable position for set-up. All pads and rollers are constructed of a dense and durable polyurethane to ensure maximum durability and reliability.

Ref.:	EN39600			
Dimensions (cm):	115 x155x 80			
Weight (Kg):	50			

O'LIVE AB MAT

The Ab mat increases the range of motion necessary to work the entire abdominal muscle group. You can perform a variety of exercises that isolate upper and/or lower abs, as well as the obliques and lower back muscles.

The O'Live Ab mat is safe and comes with a comfortable design contoured to your lower back to provide support and avoid laceration to the tailbone and glutes during hard or high speed workouts.

O'LIVE SPRINTER RESIST KIT

Apply both lower and upper resistance during sprint or race training. Consists of:

- 2 arm straps EN38800, 2 ankle straps ST00700.
- 1 anchor strap EL11900.
- 4 medium intensity resistance tubes of 1.20 m ST00803.

r ourry bug.		
Ref.:	EN44101	EN44102
Intensity:	Medium	High

O'LIVE VARIABLE RESIST KIT

Apply resistance during agility and power training. There are two athletes performing exercises taking turns the role to provide resistance one each other. It Consist of 2 resist belts ST00600 and one strong resistance tube of 1.2 m ST00803 and one carry bag.

Ref.: EN44600

O'LIVE 2 PLAYER RESIST KIT

Apply resistance during agility and power training. A partner holds the elastic during use allowing greater range of movement of the athlete and versatility of the exercises. It consists of:

- 1 harness EL11800.
- 1 medium intensity resistance tube of 2.4 meters ST05502.
- 1 handle PL18400.
- 1 carry bag.

Ref.: EN44500

O'LIVE 360° RESIST KIT

Apply resistance during agility and power training. By fixing the elastic in two opposite points, the athlete gets strength in all directions with complete freedom of movement. This consists of:

- 1 belt ST00600.
- 2 anchor straps EL119001.
- 2 strong resistance tubes of 2.4 meters ST05503.

EN44700

- 1 carry bag.

Ref.:

O'LIVE SPEED SLED

The speed sled is used for power training and to strengthen the lower body. It can be used indoors or outdoors and includes 3 removable bags of 5 kg each, to change the ballast weight. Supplied with full bags.

Ref.: EN43200

O'LIVE LATERAL RESISTOR

The Lateral resistor is ideal for training the side postural skills of the athlete, improving the speed agility. Ankles have velcro closure and are padded for comfort. Available in two intensities.

Ref.:	EL13601	EL13602
Intensity:	Medium	Strong

O'LIVE

O'LIVE UNLIMITED FUNCTIONAL VEST KIT The O'live Fitness Functional vest allows training with constant tension and

freedom of movement even when changing directions. Anchor points are moved on the same plane, facilitating the performance of combined exercises in different ways. The vest is made by heavy duty nylon and features padded protection for comfort. It allows multiple applications as it can be used alone or with a partner, it can also be set at a fixed point or use it to drag sleds or tires. Includes:

- Full functional Vest (includes 2 auxiliary belts with rings and carabiners).Rigid 2 nylon straps for use by a partner.
- 2 elastic cords of medium intensity.
- One anchor strap suitable for attaching the elastic cord to a fixed point.
- 2 handles, suitable to hold the straps or elastic cords.

ONE+ GRAPHIC KIT

A clever and useful tool for instructors and coaches, specially designed to give an added value to clients and users. Made of the highest resistance materials available, the sticker provides a strong fixation to the floor. The sticker is covered with an external layer of high durability polycarbonate, provides a long term protection against UV radiation and has an anti-slip surface.

Graphics can be used to guide users inside a fitness center, can help saving space and equipment and are also very useful for instructors. A revolutionary tool designed to help people perform exrcises and to improve safety and enthusiasm in all kinds of facilities.

Maximize your investment on your One+ by customizing your own floor graphics. Your members will immediatly benefit from having a visual positioning reference, making it easier for clients and instructors to work consistently and to deliver new ways of workout programming.

The graphics kit for One+ is available in several colors and it is possible to add your own logos to it. Suitable for all kind of surface, including rubber, recycled rubber, concrete, wood or laminated.

EN45700 Ref.:

O'LIVE ONE FUNCTIONAL STATION

The O'live Fitness One Functional Station is a hybrid between the F.C.S. and One +. It is made of 80mm x 80mm and 3mm thick columns and with the reinforced crossbeams of the One+ Station. The station provides good stability and resistance value and incorporates features such as numbering of the spaces in the columns, thus facilitating adjustments of the accessories. Training possibilities are the same as the One + Station, offering versatility by allowing the addition of a large number of accessories.

Features:

- 80mm x 80mm and 3 mm thick columns, gaining in strength.
- Numbering performed by laser cut in the columns, providing functionality.
- Reinforced crossbeam, ensuring stability.
- Polyethylene protected on the accessories, preventing scratches and wear.
- Variety of accessories available for greater utility.

- The coating with texture epoxy black paint offers optimum grip on the monkey bars.

- Made in Europe ensuring high quality.

Note: Columns must be bolted to the floor to ensure stability.

O'LIVE F.C.S

The O'live Fitness Functional Crosstraining Station (F.C.S.) is an evolution of the standard designs, setting new options in terms of functionality, adaptability and stability. With 80mm x 80mm and 3 mm thick columns, reinforced crossbeams and 16mm diameter screws, the station provides a good balance between stability and solidity. The F.C.S is customizable and extensible that can be enhanced by available functional training accessories. It incorporates features such as numbering value of spaces in the columns, thus facilitating adjustments and polyethylene protections in the accessories, allowing optimal fit and preventing wear. The FCS is offered in different configurations, either as freestanding or wall mounted.

Features:

- 80mm x 80mm and 3 mm thick columns, increasing solidity.
- Reinforced crossbeams for stability.
- 16mm screws for a secure attachment.
- Numbering performed by laser cut in the columns, providing functionality.
- Polyethylene protections of the accessories, preventing scratches and wear.
- 32 mm bars and 3mm thickness
- Adaptability and customization, accommodating to any space and need.
- Large variety of accessories available for greater utility.
- Expandable with modules with 1080mm or 1680mm predefined widths.
- The coating with epoxy textured black paint offers optimum grip on the monkey bars.
- Made in Europe ensuring high quality.

O'LIVE F.C.S. BASIC

The basic configuration is designed in terms of affordability and simplicity. It is the base for future customizations and extensions. The crossbeams can be mounted at various heights and also allows the incorporation of most accessories. With a height of 2.60 meters, it is available in 5 standard sizes and can be expandable in 1080mm or 1680mm modules width. The station is supplied with all necessary hardware for installation.

O'LIVE PLUS POWER RACK

The Power Rack Plus goes beyond a simple squat rack. The design allows it to be a full training station with the possibility of adding different accessories. The Power Rack Plus is a rack that allows not only work squat, deadlift or bench exercises, but with the addition of dips accessory and core trainer allows training with multiple users working simultaneously on different workstations. The rack is supplied with all necessary hardware for installation. It is a really robust rack and incorporates:

- 1 pair of j-cups.
- 1 set of safety strap system.
- 1 dips accessory.
- 1 set of superbands attachment.
- 4 Plates storage attachments.
- 1 Fixed Core Trainer.
- 1 Olympic bar holder.

Note: Product Made in Europe. Olympic bar, bumper plates and bench not included.

Ref.:	ES19902
Dimensions (cm):	139 x 139 x 261 + accesories
Others:	Power Rack Plus

O'LIVE CUSTOM 1 DOUBLE POWER RACK

The Custom 1 double Power Rack goes beyond a simple squat rack. The design allows it to become a full training station with the possibility of adding different accessories. The Custom 1 Power Rack is a rack that allows not only perform squat, deadlift or bench exercises, but with the addition of dips accessory and core trainer allows training with multiple users working simultaneously on different workstations. The rack is supplied with all necessary hardware for installation. It is a really robust rack and incorporates:

- 2 pair of j-cups.
- 2 set of safety strap system.
- 8 Plates storage attachments.
- 1 Core Trainer Bar.
- 1 Core Trainer Support.

Ref.:	ES20000
Dimensions (cm):	139 x487x 261

O'LIVE CORE TRAINER

The Core Trainer transforms your Olympic bars and disks in tools that allow you to perform a wide range of multi directional exercises to get stronger and more powerful core. The Core Trainer has axes of rotation for moving the bar 360 degrees in either direction. Use this versatile device for perform core exercises, upper and lower body, or perform movements that work different muscle groups at once. The Fixed Core Trainer can be fixed into the Core Trainer Station and all O'live Functional Stations.

Ref.:ES15200Dimensions (cm):15 x39x 8

O'LIVE CORE TRAINER BAR

The Core Trainer Bar transforms your Olympic bars and disks in tools that allow you to perform a wide range of multi directional exercises to get stronger and more powerful core. The Core Trainer has axes of rotation for moving the bar 360 degrees in either direction. Use this versatile device for perform core exercises, upper and lower body, or perform movements that work different muscle groups at once. The Core Trainer Bar is screwed to the Core Trainer Station and all O'live Functional Stations.

Ref.:	ES15300
Dimensions (cm):	24 x250x 12

O'LIVE CORE TRAINER SUPPORT

Designed for use with the Core Trainer, this support allows the bar rests at a high level, so the user does not have to lean to raise the bar. Especially useful when there are a lot of weight or to perform squats. It has brackets on each side to hold Olympic disks and additional accessories.

Ref.:	ES15400
Dimensions (cm):	80 x52x 82

J-CUPS

The O'live Fitness J-Cups have a curved shape to sustain the bar. With Polyethylene inserts to protect the bar knurling and to avoid scratches on the structure. Including a double posterior fixation to ensure a better distribution load. Suitable for columns of the FCS.

Ref.:	ES16200
Dimensions (cm):	9 x23x 22

SAFETY BARS

They add safety when a failed lift occurs. They also can be used for partial lifting. It incorporates Polyethylene inserts to protect the knurling of the bar, reduce noise and prevent scratching and paint of the column. Their holes allow the addition of superband accessories and thus increase the possibilities of training.

Ref.:	ES16300
Dimensions (cm):	9 x25x 73

SAFETY STRAP SYSTEM

Provides security for the athlete to any eventual fall of the bar. The system is easily adjusted without removing any pin and is composed of 4 supports and a pair of high tenacity nylon straps able to support up to 2 tons. The system is noiseless since there is no metal to metal contact, and polyethylene covers prevent scratches in columns.

Note: Suitable for Power Rack and 108cm depths.

Ref.:	ES17600

Right accessory for performing triceps curls. The locking mechanism is fast

and easy, no "pins" to set, simply turn and push. It has added a double posterior

fixation to ensure a better load distribution and incorporates polyethylene inserts

FUNCTIONAL WALL BOARD

Compatible with all O'live Fitness functional stations, installation is quick and easy. The height is easily adjustable (also in competition standard 2.70 m 3.00 m). The board allows for greater precision during training with the wall ball. Made by 40 cm diameter HPL compact board and engraved in black, prevents chafing and faded from the use itself.

Ref.:	ES16600
Dimensions (cm):	18 x64x 40

INFINITE ROPE TRAINING STATION

Infinite rope Training Station is a unique accessory that allows different functional exercises based on the use of battle ropes. Different movements can be performed, not only pulling, allowing metabolically intense workouts and involving different muscle chains. The advantage of our system is the peculiarity of being able to perform the exercises without having to stop because of the finite rope. The included rope with the system is double braided allowing a firm and secure grip and is jointed looped allowing a workout without stops. The resistance can also be modified simply by winding the rope to the tubes. Another innovation of the system is the ability to allow pull from various heights without having to make any adjustments. It is possible to pull from the top, middle and bottom indistinctly allowing much more versatile than other commonly used rope systems.

The infinite rope training station fits to any O'Live Fitness station.

Ref.:	ES17800

SUPERBANDS TRAINING STATION

The station allows training with supebands easily and safely because of its multiple attachment points. You can perform countless exercises either of strength or flexibility of both the upper and lower body as well as the abdominal area. The station can be mounted at any O'live Fitness functional station. Superband not included.

BATTLE ROPE ATTACHMENT

Support for screwing to the floor, wall or any O'live Fitness functional station suitable for use with combat ropes and other products that require an attachment point as resist tubes, speed resistor, etc. The tube is made of stainless steel preventing wear caused by friction.

Ref.:	ES17400
Dimensions (cm):	15 x17x 6

is bolted to the columns of all O'live Fitness functional stations.

PLATE STORAGE ATTACHMENT

It allows storage of Olympic disks. It's made of stainless steel and is screwed to the columns of all O'live Fitness functional stations.

Ref.:	ES17200
Dimensions (cm):	7 x15x 30

RING ATTACHMENT FOR ELASTIC TUBES

The Ring attachments are indispensable for any O'live fitness functional station. They are made of stainless steel, and allow fixing any elastic tubes or other accessories.

Ref.:	ES17700
Dimensions (cm):	7 x15x 8

COLUMN FOR F.C.S.

The column for functional training stations FCS and One is made of 80 x 80 mm and 3 mm thick steel tube, ensuring rigidity and stability. It has laser cut numbering for easy adjustments of the accessories. Powder coated with textured black epoxy paint. Made in Europe, ensuring optimum quality. It includes hardware for mounting on the floor.

	5
Ref.:	ES18600
Dimensions (cm):	15 x15x 261

MONKEY BAR

Ladder bars are used in all Functional Stations of O'live Fitness to create a horizontal ladder on top of the station. Coated in textured black epoxy paint provides an optimum grip for push-ups. Grip has a diameter of 35mm.

Ref.:	ES15600
Dimensions (cm):	15 x168x 60

STRENGTHENED BAR FOR F.C.S

The reinforced bars are used in the FCS stations to join different components and modules. Made of steel tube of 32 mm diameter and 3mm thick with reinforcements for rigidity. Coated in textured black epoxy paint providing optimum grip.

Ref.:	ES15701	ES15702
Dimensions (cm):	20 x108x 8	20 x168x 8

FLYING BAR CROSSBEAM

The Flying bar crossbeams are used in the O'live fitness FCS for pull ups and other exercises such as muscle ups. They can be mounted at different heights and incorporates two 32mm diameter bars. Made of 60 x 60 mm and 3 mm thick steel tube, they provide high rigidity. Coated in textured black epoxi paint for optimum grip.

Ref.:	ES15801	ES15802
Dimensions (cm):	35 x108x 35	35 x168x 35

80 X 80 MM CROSSBEAM

The crossbeams are used in the O'live F.C.S to ensure greater stability, especially in higher settings. Made of 80×80 mm and 3 mm thick steel tube incorporate reinforcements for rigidity. Shackles, front flying bars and other accessories can be attached.

Ref.:	ES16101	ES16102
Dimensions (cm):	25 x 108 x 8	25 x 168 x 8

LARGE FRONT FLYING BAR

Front Flying bars are mounted on 80 x 80 mm crossbeams and in F.Station One and One+. They have a small angle which allows the bar to install two possible heights according to preference. Coated with epoxy textured black paint ensuring optimal grip.

Ref.:	ES16901	ES16902
Dimensions (cm):	30 x 100 x 8	30 x 120 x 8
Others:	Short	Long

HEIGHT EXTENSION KIT

Increase the height of the O'live Fintess F.C.S to a total height of 3.6 meters. When installed allows a station to accommodate rings. In this case a 1680mm crossbeam, two shackles and two carabiners are necessary to fix the straps of the rings.

Note: When 2 or more high extensions are installed, the union of these it is recommended by the 80 x 80 mm crossbeam to ensure rigidity.

ncreases the height of the O'live Fitness F.C.S to a total height of 4.5 meters. When installed allows a station to accommodate a climbing rope. In this case a crossbeam of 168 cm, a shackle and a carabiner are needed to attach the rope.

Note: The height extension of 4.5 meters is only possible together with another high extension (3.6 m or 4.5 m) and then fixed by 80 x 80 mm crossbeams to ensure rigidity and stability.

Ref.:	ES16701	ES16702
Dimensions (cm):	8 x8x 100	8 x8x 190

VERSATILE PULL UP BAR

The versatile bar allows perform pushups more comfortably, because of the rotation of the grips the wrist joints and elbow do not suffer much. It incorporates a central ring to set superbands and thus provide assistance for the execution of the exercise. For this reason the bar is useful for both beginners and advanced users.

Ref.:	ES18001	ES18002
Dimensions (cm):	8 x15x 170	8 x15x 176
Others:	ONE	ONE+

SHACKLE FOR CROSSBEAM

The shackles are attached to the 80×80 mm crossbeams. They are used to fix carabiners and these suspend climbing ropes, rings, punching bags, suspension trainers, etc. It includes carabiner.

Ref.:	ES16800
Dimensions (cm):	8 x 13 x 8

LATERAL EXTENSION FOR RINGS

The lateral extension allows an extra rings station for using with all O'live Fitness Stations. It incorporates reinforcements for rigidity and can be mounted at any height of the column. It is necessary to add two shackles and two carabiners if rings are suspended.

Ref.:	ES15900
Dimensions (cm):	35 x120x 8

LEVELING PLATES

Laser cut to the same dimensions as the base plates of F.C.S columns; they are used for leveling the station when the floor is not perfectly level. They are installed between the column and the floor allowing rest all the columns firmly.

		-	-

These barbells are the ideal choice for cross training and Gym centers taking into

Many of O'Live Functional Elite bars are in use in cross training and Gym centers

because they hold up to high intensity training and repeated dropping without

bending or breaking, and they exhibit the performance of barbells that cost much

more. This barbell was designed specifically for functional training, with an ideal

compromise between rigidity and flexibility, allowing you to switch between the

O'LIVE OLYMPIC FUNCTIONAL ELITE BAR

consideration construction, durability, and price.

Olympic lifts and slow lifts without switching your barbell.

O'LIVE OLYMPIC FUNCTIONAL BASIC BAR

An entry level bar at a price anyone can afford with performance that is more than you could ever expect of a barbell at this price point.

This barbell was designed specifically for functional training, with an ideal compromise between rigidity and flexibility, allowing you to switch between the Olympic lifts and slow lifts without switching your barbell. Although this bar is not intended for hard-core use, isn't deficient in strength. The Functional Basic bar has a tested weight bearing capacity of 650 kg.

O'LIVE HALF RACK UTILITY PEGS

Made from solid steel, are suitable for the O'Live Half Rack, and used for dip stations, band attachments or plate storage.

Ref.:	PL21400
Dimensions (cm):	10 x19x 43

The **R Series** of stations, benches and racks are designed to provide high performance features to advanced users without intimidating the new ones; all thanks to their user friendly shapes. It is called **R Series** due to the **R**ectangular tube with rounded edges which provides rigidity as well as a great design. Another features are dense padding, staintless steel discs pegs and no metal supports for maximum protection and durability. All the equipment in the **R Series** is engineered to provide good accessibility, proper biomechanics and to improve durability.

O'LIVE RS FLAT BENCH

The flat bench press is a basic component in any fitness centre; its three leg shape makes it stable and versatile as it allows complete freedom of movement to the user.

Ref.:	PL20700
Dimensions (cm):	56 x138x 45

O'LIVE RS ADJUSTABLE BENCH

The versatility and durability of the adjustable bench press make it a key element in any sports facility. The saddle and the backrest can be adjusted for greater ergonomics and a variety of exercises. The padded backrest is set to different positions from a flat position to 90°. The padded saddle can also be adjusted in 15 degree increments, from a flat position to a 45° angle.

 Ref.:
 PL20500

 Dimensions (cm):
 81 x76x 162

O'LIVE RS BICEPS BENCH PRESS

The ergonomic design of this biceps bench press can accommodate the bar at two levels and can adjust the saddle at different heights to adapt to most users. Designed for a long life, it takes up very little space and incorporates plastic protections to prevent the bar and the frames from wearing.

Ref.:	PL20400
Dimensions (cm):	97 x84x 132

O'LIVE RS KNEE RISE

The knee rise station provides effective core training by raising knees and by permitting dips and also working the triceps. It is stable and robust. Its padding allows a comfortable and effective training.

Ref.:	PL19600
Dimensions (cm):	160 x71x 112

O'LIVE RS OLYMPIC DISCS RACK

The elite discs rack is very useful to store Olympic discs in a minimal floor space. It is robust and stable and incorporates rubber protectors to prevent friction. The disc pegs are stainless steel for maximum durability. Discs not included.

 Ref.:
 PL19000

 Dimensions (cm):
 125 x56x 70

O'LIVE RS PROSTYLE BAR STAND

The Pro-style bar support is a very effective stand in terms of storage capacity as it takes very little space. The plastic protections on the supports and frames help protect the bars and the rack.

Ref.:	PL20800
Dimensions (cm):	150 x99x 71

O'LIVE RS ABDOMINAL BENCH

This is a fundamental component in the fitness room of any sports centre. It is specifically designed for abdominal work and it is widely used by users. It includes 6 decline positions from 8 to 33 degrees. It is an ergonomic bench, with an oversized backrest and padded rolls for greater adaptability and user comfort.

Ref.:	PL20600
Dimensions (cm):	114 x132x 68

O'LIVE RS LUMBAR BENCH

The lumbar bench allows users to exercise an area of their body that is often forgotten. It is durable and easy to use thanks to its sliding mechanism, which allows full adjustment to any user size.

Ref.:	PL19500

O'LIVE RS STRETCH STATION

The stretch station is light and small in size. Users can safely and comfortably work on flexibility of the back and buttocks among other muscles. It is suitable for use both before and after the training.

Ref.:	PL20300
Dimensions (cm):	130 x140x 45

O'LIVE RS OLYMPIC CHEST BENCH PRESS Fundamental component of any free weight area in any sports facility. The

Fundamental component of any free weight area in any sports facility. The Olympic chest bench press has been designed and manufactured with special focus on quality and detail. Its padding is designed to provide comfort and control. It includes two support bars for ease of use. It is made of plastic material to prevent the bar from wearing.

Ref.:	PL19700
Dimensions (cm):	123 x173x 117

O'LIVE RS SQUAT CAGE

The squat cage is a fundamental unit in most sports facilities. It is very durable and designed to offer a great variety of exercises safely. It includes protections on the supports to prevent friction as well as wear and tear, and it can be adjusted in up to 12 different positions. It includes a non-slip squat bar.

 Ref.:
 PL19300

 Dimensions (cm):
 230 x150x 126

O'LIVE RS SQUAT RACK

The squat rack has been designed and manufactured based on the criteria of quality and attention to detail of all O'Live products. Its frame is sturdy and stable and includes supports for disc storage. It includes protections on the brackets and rails to prevent friction as well as wear and tear.

Ref.:	PL19400
Dimensions (cm):	150 x99x 71

O'LIVE RS MULTIPOWER

The Multipower O'Live bar starts from a weight below 7 kg. It is ideal for users to safely carry out a wide variety of exercises both of the upper and the lower body. Its design can freely accommodate benches as it does not have a transversal support at ground level.

Ref.:	PL20000
Dimensions (cm):	230 x222x 144

O'LIVE RS SEATED CALF

Its robust and stable design together with the handles and the release lever of this calf station allows the user to train safely. The weight discs support is angled for easy loading and unloading, and the pad for the thighs is adjustable to accommodate all types of users.

Ref.:	PL19900
Dimensions (cm):	100 x145x 53

O'LIVE RS ANGLED LEG PRESS

Angled press to work the lower body. It is soft and durable thanks to the mechanism which incorporates linear bearings. The backrest is adjustable for greater user comfort.

Ref.:	PL20200
Dimensions (cm):	130 x210x 165

O'LIVE RS ROWING

The rowing machine is ideal for working the muscles of the back. It has a lever with two different grip positions for versatility, and the anatomical design of the padding facilitates the workout.

Ref.:	PL19800
Dimensions (cm):	118 x185x 95

O'LIVE RS DUAL MULTIFUNCTION

The Dual Multifunction Training Station consists of two separate towers of 90 Kg. each, with adjustable pulleys, which can provide resistance strength training with complete freedom of movement, and can improve co-ordination and stability. Its compact design, with smooth lines, is easy to use and it can be adapted to most training premises.

Ref.:	PL20100
Dimensions (cm):	233 x175x 112

O'LIVE CURL LAT BAR

Accessories for cable or pulley machines that provide different grip options. They have a nickel plated surface, which is more durable than chrome. Ergonomic and pleasant to the touch PU handles, more durable than standard rubber ones.

O'LIVE ACCESSORIES RACK

Compact one-piece rack suitable for storing up to 15 handles. Handles not included.

Ref.:	MU08200
Dimensions (cm):	125 x50x 50
Color:	Grev

O'LIVE PULL ROPE

Heavy duty tricep rope is designed for maximum triceps contraction when is used with weight stack cable equipment. Rubber ended rope ensure confortable grip. Constructed with heavy braided nylon and toughened swivelling attachment, the strength and endurance is tested in 400 kg on rubber ends and will not be pull apart.

O'LIVE SINGLE HANDLER

The O'Live single handle is made of nylon and plastic tape and it is useful when used with pulley cable machines.

Ref.: PL18400

O'LIVE LEATHER ANKLE STRAP

Black leather ankle strap with soft inner padding for extra comfort. It is useful when used with pulley cable machines.

Ref.: PL18500

O'LIVE GRIP TRAINER

The O'Live Grip trainer is an effective finger-hand-forearm strength and endurance trainer. With 5 different strengths to choose from, they offer you a made-to-measure fit, whether you are just starting off, are rehabilitating an injury, or already have the world's strongest hands. Sold in units.

(100 lb) 45 kg The chances are that if you've been lifting weights for a while or if grip strength is a part of your daily work, the 100 will be just the right place for you to start.

(150 lb) 70 kg Things start to get serious because most people who lift weights cannot close it the first time they try. When you can do ten consecutive repetitions with this gripper, you will already have an unusually strong arip.

(200 lb) 90 kg If you are strong enough to fully close it, you have exceptionally strong hands. The 200 lg grip trainer marks the standard of strength for top athletes.

(250 lb) 110 kg Once you have mastered the 200 lb, you will undoubtedly begin to think about closing the 300 Ib gripper. it was with the express goal of helping you get there, by giving you a bridge in between. (300 lb) 135 kg Closing the 300 lb grip trainer is the mark of a grip master.

Ref.:	PL21501	PL21502	PL21503	PL21504	PL21505
Others:	45 Kg	70 Kg	90 Kg	110 Kg	135 Kg

O'LIVE JERK BOXES

PL21600

Jerk boxes are often utilized in weight training as a way for athletes to focus on improving their jerk without having to clean the weight to the rack position on each rep. Furthermore, the ability to manipulate the height of the Jerk Boxes leads to a diverse range of exercises in which they can be utilised. Use them as pull blocks for partial deadlifts, or as a way to set hang positions for cleans, high pulls and snatches, and even as spotting implements for heavy squats or bench presses. Vary the box combinations for box jumps (from 15cm to a maximum height of 196cm!) and complex plyometric drills, and in one piece of equipment you have a tool around which an entire session can be based.

O'Live Jerk Boxes are CNC cut to insure that the boxes are interchangeable but still keep a secure fit when stacked. Each box features double-wall construction coupled with interior bracing and blocking that locks each box into place securely and easily.

Dimensions: 4 blocks of $51\,x\,91\,x\,15\,cm\cdot 2$ blocks of $51\,x\,91\,x\,30\,cm\cdot 2$ blocks of $51\,x\,91\,x\,38\,cm$

Rof

O'LIVE LIFTING CHAINS

The use of chains to add resistance gradually increases the load during lifting. Studies have shown that greater force is performed during the third part of the lift. Using chains that add strength in this third part of the motion does not interfere with the lowest resistance in the initial part, but helps enhance the movement in question more easily without being held back by the weakness that appears in the initial part. Sold in pairs.

Ref.:	PL15501	PL15502
Weight (Kg):	12	24

FAT GRIPZ

The Fat Gripz have been used by hundreds of athletes worldwide increasing muscle activation and offering greater strength and muscle mass. They adapt easily to any measure bar, barbell or maneral by increasing its thickness more than double. A compound made_of high density are adapted to the bar and will not compress, although exercise load is high. The results are immediately noticeable from the first practice. Sold in units.

Ref.:	PL18000	
Dimensions (o	:m): 7 x7x 35	

Padded cylinder designed to protect neck and shoulders during training with the lifting bar. It is made of soft and durable material awarded with the Sanitized certificate. It fits any size bar.

Ref.:	EN05500
Dimensions (cm):	ø 8 x 50
Color:	Black

O'LIVE DUMBELL GRIPS

Sweat resistant dumbbell grips made of high quality vinyl. They are non-slip and incorporate a wear prevention fabric in the inside. Sold in pairs.

Ref.:	EN05400
Color:	Black

O'LIVE WEIGHTLIFTING PLATFORM

Popular in specialist training facilities, a weightlifting platform is ideal for performing explosive Olympic lifts such as deadlifts and cleans. This Rubber Lifting Platform with wood/vinyl centre is suitable for any gym, or athlete looking to train with heavy weights. Helps with firm, stable footing for safe lifting and protects floor. Made with wood/vinyl on center and heavy duty outer rubber sections. With metal surround.

Ref.:	PL22700	
Dimensions (cm):	306 x 206 x 3	

O'LIVE TRAINING PLATFORM

The training platform provides adequate area for weight training, whether barbells, dumbbells or kettlebells. The platform is manufactured using 30mm thick rubber tiles and then attached with a metal profile. It is suitable for training with heavy loads in order to allow safe area for both athlete and floor installation. It provides a stable and non skid base for secure basis for safely lifts while is silent and protects the floor.

Ref.:	PL23000
Dimensions (cm):	306 x 206 x 3

RUBBER TILE 30 MM

The 30 mm rubber tiles are especially suitable for areas where high amounts of absorbing bumps, drops and noise are needed. Its 30 mm thickness is enough to reduce a high percentage of energy caused by falls or shock caused for dumbbells, barbells or kettlebells. Rubber is also non-slip, ensuring optimal training area for athletes. Therefore, they are used in free weight areas, functional training and cross training. The installation is simple, does not require adhesives and can be placed over existing floor. They are also available with edge tiles, facilitating the transition from floors at different heights.

Ref.:	SU04001	SU04002
Others:	Tile	Edge

O'LIVE CORE TRAINER STATION

The Core Trainer Station is a base where you can set one or two Core Trainers. The advantage is that it ensures a solid and fixed station that allows training up to two Core Trainers, enabling bilateral exercises and versatility. For optimum performance Olympic disks are required to increase the weight and gain stability.

Note: Fixed Core trainers not included.

Ref.:	PL22800
Dimensions (cm):	60 x80x 28

O'LIVE CORE TRAINER

The Core Trainer transforms your Olympic bars and disks in tools that allow you to perform a wide range of multi directional exercises to get stronger and more powerful core. The Core Trainer has axes of rotation for moving the bar 360 degrees in either direction. Use this versatile device for perform core exercises, upper and lower body, or perform movements that work different muscle groups at once. The Core Trainer needs a 25 kg portable disk or 2 of less weight to allow optimal stabilization.

Ref.: PL24700

O'LIVE MULTIFUNCTION CORE TRAINER HANDLE

 Ref.:
 PL22900

 Dimensions (cm):
 78 x 94 x 18

The basic core trainer handle is designed to fit into the end of the Olympic bar and thus provide better ergonomics and functionality while using the Core trainer. Optimum grip options allow users to upgrade their skills to perform exercises such as chest press.

Ref.: PL25100

O'LIVE CORE TRAINER

The Core Trainer transforms your Olympic bars and disks in tools that allow you to perform a wide range of multi directional exercises to get stronger and more powerful core. The Core Trainer has axes of rotation for moving the bar 360 degrees in either direction. Use this versatile device for perform core exercises, upper and lower body, or perform movements that work different muscle groups at once. The Fixed Core Trainer can be fixed into the Core Trainer Station and all O'live Functional Stations.

Ref.:	ES15200
Dimensions (cm):	15 x39x 8

O'LIVE CORE TRAINER BAR

The Core Trainer Bar transforms your Olympic bars and disks in tools that allow you to perform a wide range of multi directional exercises to get stronger and more powerful core. The Core Trainer has axes of rotation for moving the bar 360 degrees in either direction. Use this versatile device for perform core exercises, upper and lower body, or perform movements that work different muscle groups at once. The Core Trainer Bar is screwed to the Core Trainer Station and all O'live Functional Stations.

Ref.:	ES15300
Dimensions (cm):	24 x250x 120

O'LIVE CORE TRAINER SUPPORT

Designed for use with the Core Trainer, this support allows the bar rests at a high level, so the user does not have to lean to raise the bar. Especially useful when there are a lot of weight or to perform squats. It has brackets on each side to hold Olympic disks and additional accessories.

Ref.:	ES15400
Dimensions (cm):	: 80 x52x 82

BLACK ROLL

O'LIVE BLACKROLL

The Blackroll not only streches muscles and tendons, it also breaks down soft tissue adhesions. By using your own body weight and a cylindrical roller as Blackroll you can perform a myofascial release or selfmassage, break trigger points, and soothe tight fascia while increasing blood flow and circulation to the soft tissues.

For more intensive practice, the Groove version has stronger massage-effect, for prevention and treatment of cellulite. Recommended for professionals.

O'LIVE COMPACT WALL BARS

Wall bars are useful for a variety of mobility, flexibility and stretching exercises. Made of compact hpl panel and wooden bars from Flanders, and styled to match the different racks from the 0 'live Compact Series. It includes the steel plates needed to attach the wall bar to the wall.

Ref.:	F104400
Dimensions (cm):	106 x 230 x 18

O'LIVE FITNESS MAT

The Fitness mat has been awarded with the Sanitized certificate, which gives greater hygienic properties. At the same time its flexibility and its completely smooth surface on the reverse, allows excellent grip to the floor. Its size and properties make it ideal in areas dedicated to personal training, in stretching areas, rehabilitation, etc.

- Ideal for spaces dedicated to streching, rehabilitation, etc.
- Sanitized hygienic certification.
- Slightly textured surface to prevent slipping during exercise.
- Flexible mat that achieves high grip to the floor.
- Made in Europe.

Ref.:	CL01500
Dimensions (cm):	60 x1,5x 180
Color:	Blue

O'LIVE STABILITY CUSHION

Add variety and functionality incorporating the stability challenge to your training sessions. The Cushion provides balance and strength challenge while performing exercises standing, sitting, kneeling or lying down.

- Suitable for both: rehabilitation and skilled athletes.
- Non-plastic texture (pleasant to touch).
- It supports up to 155 kg.

	5
Ref.:	EN20200
Dimensions (cm):	ø 36
Color:	Blue

O'LIVE BALANCE PAD

The balance pad is the stability product most recommended for beginners, seniors or people with reduced mobility. It is also recommended for rehabilitation, and for sports conditioning. It provides an added stability challenge, while strengthening core muscles, improving proprioceptive awareness and increasing muscle strength and mobility.

Ref.:	PI13400
Dimensions (cm):	46 x 6 x 40

O'LIVE STUDIO BOXING GLOVES The Studio boxing gloves feature minimal protection, being suitable for

The Studio boxing gloves feature minimal protection, being suitable for performing aerobic or choreographed activities where hits are more for marking than impact. They have a cotton wristband with velcro closure. Available in two sizes. Sold in pairs.

Ref.:	FI06501	FI06502
Size:	L/XL	S/M

O'LIVE MMA LIGHT BOXING GLOVES Used for boxing training and martial arts. Made of high quality synthetic leather.

Used for boxing training and martial arts. Made of high quality synthetic leather. With a dense layer of cushioning to prevent injury. Comfortable and breathable with ventilation to remove moisture. Sold in pairs.

Ref.:	FI06801	FI06802
Size:	S/M	L/XL

O'LIVE BOXING GLOVES

Suitable for punching bag training. Made of high quality synthetic leather. With a thick cushioning layer to prevent injury. The curvature in the filling is uniform. Breathable with ventilation to remove moisture. Thumb and palm separated and flexible during use. Sold in pairs.

Ref.:	FI06701	FI06702
Size:	S/M	L/XL

O'LIVE BOXING GLOVES

- Suitable for sparring and punching bag.
- Made of high quality synthetic leather.
- Dense and uniform filling throughout the glove.
- Adjustment made of durable and firm touch fastener.
- Close fit of thumb, to minimize the risk of injury.
- Comfortable and soft on the back of the hand.One size fits all. 16 Oz.
- Sold in pairs.

Ref.: FI06600

112

- Stuffed with high-compression foam.
- Made of high quality synthetic leather.
- Arched design for improved ergonomics.
- Sold in pairs.

Ref.: FI07100

O'LIVE BOXING PAD

- Made of high quality synthetic leather.
- Fastened with braided leather.
- High stability due to the rear top and bottom fastening.
- Thick and reinforced handle for greater durability.
- Strong and resistant Velcro closure.
- Filled with EVA foam, prevents and resists deformation.
- Sold in units.

Ref.: FI07000

O'LIVE BOXING HAND WRAP

- Made of pure cotton.Soft and comfortable.
- Nylon Velcro fastener.

Sold in pairs.

Ref.: FI06900

Dimensions (cm): 5 x 250

O'LIVE BOXING PUNCHING BALL Made of cowhide leather with latex inner chamber. The size of the ball is

Made of cowhide leather with latex inner chamber. The size of the ball is symmetric, improving accuracy of speed and direction. It includes elastic straps for attachment.

Ref.: FI07400

O'LIVE BOXING SPEEDBALL

Made of cowhide leather and double stitched for strength and stability. Its symmetric equipotential latex inner chamber improves the accuracy of speed and direction.

Ref.: FI07300

O'LIVE ADJUSTABLE SPEEDBALL PLATFORM

Suitable for professional settings, the speedball platform is adjustable in height and is built with a highly resistant 600 x 10 mm thick HPL platform. The wall binding plate is 6 mm thick and the 4 screws secure the bracket firmly. All fixing included. Note: Swivel not included (Ref.: FI06300).

Ref.:	FI06200
Dimensions (cm):	60 x67x 35

O'LIVE BALL BEARING SWIVEL

The high resistance chromed swivel creates a smooth fast movement of the speedball when in use. It comes with a detachable housing making it easier to remove the speedball.

Ref.: FI06300

O'LIVE WALL/CEILING HOOK

High resistance ceiling hook, suitable for full commercial gym environments. The 6 mm steel ceiling hook with 4 fixings ensures it remains firmly fixed to the ceiling. It comes complete with all fixings.

FI05900

Ref.:

O'LIVE WALL PUNCH BAG SUPPORT

The Wall Punchbag support is designed for hanging boxing punching bags of max 35 Kg. Made for professional use, it is made of oversized steel tube and powder coated with epoxy resin for durability. To be set on strong brick or concrete walls. Screws included.

O'LIVE ELITE WALL PUNCH BAG BRACKET

The Elite wall punchbag bracket is designed for hanging punching bags or climbing ropes. For professional use, it is made of oversized 80 mm x 40 mm steel tube. Powder coated with epoxy resin for increased durability. To be set on strong brick or concrete walls. Screws included.

Ref.: FI06100

BOXING

O'LIVE PUNCHING BAG

Made of high quality synthetic leather. High elastic and environmentally friendly inner material. Suspended by silent nylon straps with a rotation mechanism for greater balance. 6 attachment points to the bag for better balance and strength.

Ref.:	FI07201	FI07202
Dimensions (cm):	130 x ø 40	160 x ø 40
Weight (Kg):	35	45
Color:	Black	Black

O'LIVE BOXING STATION

The O'live Boxing Station is a freestanding station in which you can hang three punch bags and one Speedball without the need of any kind of fixation. This can be useful for gym rooms with small space or walls not strong enough to support a high weight.

Note: Speedball and punch bags not included; swivel and attachments are included.

- Can be used by 4 people simultaneously.
- Floor fixing plate, but can be used as freestanding.
- Epoxy powder coating finish, for extreme durability and quality.
- Manufactured in 80 x 80 mm steel box section tube.
- High resistant chromed rotational swivel.
- Rotation of balls creates a smooth fast movement of the speedball when in use.
 600 x 10 mm HPL board finish on both sides.
- Rotate the board locks to adjust the height.

• The side locks prevent any movement while in use and keep the board in one position.

Ref.:	FI06400
Dimensions (cm):	175 x180x 242

O'LIVE FREE STANDING PUNCHING BAG Free standing punching bag suitable for cardio boxing. Allows a slight flexion of

30° for shock absorption. Filled by water or sand it reach 75 kg.

Ref.:	FI03600
Dimensions (cm):	ø 69 x 170
Color:	Black

O'LIVE ELITE FREESTANDING PUNCHING BAG The O'live Elite Freestanding punching bag is built to last; it is constructed for

COMBA.

commercial use and with the user in mind. It is completely made of foam rubber. The donut shaped foam base is stronger and shock absorbent than plastic, providing extra user safety. The vertical tube is also made of foam rubber and includes an anti-bacterial covering.

Ref.:	FI04600
Dimensions (cm):	ø 75 x 185
Color:	Black / Grey
