11.9 **REFLEX TREADMILL**

MODEL # **FMTL70817**
INT # **FMTL70817-INT**

CARDIO 11 SERIES TREADMILL

The all new Reflex™ Treadmill now with an HD interactive touch display. This treadmill is different because it feels different thanks to the improved proprietary Reflex™ cushioning that reduces impact and creates a longer, stronger run. The rebound effect of our unique deck suspension system propels runners to take that next stride forward. HIIT-friendly 1-STEP™ Controls help this machine immediately respond to trainer commands. Compared to standard treadmills where the speed button would have to be pushed multiple times to reach 12 mph (20 km/h). On the Reflex™ Treadmill, push one button and you're there. A vibrant 10 in (25.4 cm) touch display engages members in a interactive workout experience and keeps entertainment controls close at hand.

t11.9 REFLEX™ TREADMILL

PRODUCT FEATURES

FULL COLOR INTERACTIVE DISPLAY

Experience the workout in full color: This high definition 10 in (25.4 cm) touch screen adds tech luxury to this machine. The tablet is where the workout comes to life, with real-route simulation by iFit® and Google Maps™, and customized workouts that never lose sight of personal fitness goals.

PROPRIETARY REFLEX™ CUSHIONING DECK

Easier on hips, knees and ankles, the Reflex™ Deck Cushioning absorbs motion to help the member run longer and stronger.

1-STEP™ CONTROLS

Get instant response and immediate action with easy to understand, 1-STEP™ Controls for speed and incline. The easy read console is made for personal trainers and class setting HIIT workouts.

PRECISION QUICK SPEED

In-between speeds are achieved by pressing the 1-STEP™ Controls back-to-back. For instance, pressing '2' then '5' will take you to 2.5 mph (4 km/h) instead of repeatedly tapping the SPEED button. It's the training details like Precision Quick Speed that give you the workout advantage.

STRIKE ZONE INDICATORS

The Strike Zones indicate the ideal running area on the treadmill.

CROSSFLOW™ FAN

It's amazing what a good onboard fan can do. Perfect for a quick cool down or use it to create a realistic run, either way, this bigger than normal fan is a welcome feature.

HEART RATE MONITORING

Get real-time data during the workout with built-in EKG grips. Results let members know when they're in the ideal heart-healthy zone.

WARRANTY | US AND INTERNATIONAL

7 Year Frame, and Drive Motor | 2 Year Parts (Mechanical & Electronic) | 1 Year Labor (US Only)
