

RS LINE

SALTER
The essence of fitness

RS LINE

SALTER presents the new **RS line**.
A range of cardiovascular machines developed
with the highest level of technology which
makes them simple in handling while
professional in performance.

The simple and intuitive operation allows use in
a quick, simple and safe way becoming an
indispensable range for spas and hotels.

RS CONSOLE

RS CONSOLE

CONSOLE TECHNICAL SPECIFICATIONS:

- Wireless pulse measurement included in the console, radiofrequency at 5 kHz (chest belt not included). This system allows an easy control of the pulsations in high intense exercises.
- Large format display with indicators of Time, Distance, Calories, Program, Steps, Total Steps, Pulsations, Speed.
- 12 preset workout programs with 16 levels of intensity.
- 4 programs to be customized freely.
- Constant Watt program WRC 10-350 designed for specific trainings and rehabilitation.
- 4 programs based on heart rate that control the intensity automatically.
- Recovery Test (RECOVERY) that helps control the physical state of the user.

RS-30 RS LINE Treadmill

TECHNICAL SPECIFICATIONS:

- Reinforced structure.
- Motor of 2.5 CV peaks of 3.8 CV [alternating current].
- Speed of 0,8 to 18 km/ h.
- Inclination from 1 to 15%.
- Variation of inclination by 1%.
- Fast adjustment of speed and incline.
- Measurement of the pulse by contact sensors incorporated in the handlebar for a comfortable and immediate reading of the pulse.
- Patented damping system.
- Control with large-format LED display, with Time, Distance, Speed, Inclination, Pulse, Calories and Profile indicators.
- 6 different predetermined training programs.
- 3 User-customizable programs.
- Emergency stop system.
- MP3 connection with included speakers and volume control.
- Useful area of the band: 145 x 52 cm.
- Dimensions: 196x83x139 cm.
- Weight: 121 kg.
- Maximum user weight: 180 kg.
- Intensive use.

RS-10 Treadmill

TECHNICAL SPECIFICATIONS:

- Motor 4CV AC (alternating current).
- Speed from 1 to 20 km / h.
- Automatic tilt with 15 positions.
- Front grip with keys for adjusting speed and inclination.
- Pulse measurement by built-in contact sensors on handlebar for a comfortable and immediate reading of the pulse.
- Wireless pulse measurement (chest belt not included). This system enables convenient pulse control during training at high speed.
- Security key.
- It includes a monitor with wide LCD screen that provides constant information of the exercise indicators: Time, Speed, Distance, Tilt, Calories, and Pulse.
- Manual and program operation. 12 different predetermined training programs.
- 3 Programs customizable by the user.
- HRC programs.
- Body Fat Program.
- Screen with energy saving function.
- USB connector for recharging mobile devices.
- Jack connector to play your favorite music.
- Luminous warning light on the screen that warns of the band's need for lubrication.
- Double bottle holder.
- Levellers on the base.
- Wheels for easy transport.
- Useful area of the band: 150 x 56 cm.
- Dimensions: 197 x 89 x 156 cm.
- Maximum user weight: 180 kg.
- Intensive use.

VIDEO
MONITOR

RS-43 Elliptical with connectivity RS LINE

TECHNICAL SPECIFICATIONS:

- Reinforced structure.
- Magnetic brake system of high quality, quiet and maintenance free.
- Flywheel equivalent to 22 kg that generates a smooth and fluid movement.
- Length of stride: 42 cm.
- Feet platforms adjustable in 3 possible ways to adapt to the user's needs.
- Ergonomic fixed handlebar with a hand pulse sensor integrated for an immediate and accurate reading of it.
- Wireless pulse measurement included in the console, radiofrequency at 5 kHz (chest belt not included). This system allows an easy control of the pulsations in high intense exercises.
- Stride length adjustable in 4 possible ways.
- 15,6'' Touch screen control panel.
- Program, Steps, Total Steps, Pulsations, Speed.
- 12 preset workout programs with 16 levels of intensity.
- 4 programs to be customized freely.
- Constant Watt program WRC 10-350 designed for specific trainings and rehab.
- 4 programs based on heart rate that control the intensity automatically.
- Recovery Test (RECOVERY) that helps control the physical state.
- Bottle holder included.
- Levelers in the rear end easy to handle.
- Incorporated wheels that allow an easy movement of the machine.
- Measurements: 135x 81x170 cm.
- Weights: 69 kg.
- Maximum user weight: 130 kg.
- Intensive use.
