

O'LIVE FUNCTIONAL TOWER

Introducing the new O'Live Fitness Functional Tower, the ultimate workout equipment for those seeking a simplified workout station. The Tower is perfect for demanding athletes looking to improve their performance and increase their strength without taking up too much space or making a large investment. The O'Live Fitness Functional Tower is a full-body training machine, meaning it offers a wide variety of exercises for the entire body thanks to its various accessories that can be added. From working with a boxing bag to pull-ups, the equipment has numerous options to help you achieve your fitness goals.

Made with high-quality materials in the European Union, this equipment is an investment that will last for years, with a sturdy and durable frame along with high-quality components. There is also an outdoor version available.

In addition, the equipment is easy to use. With an optimized adjustable fixation system, you can quickly switch from one exercise to another without constantly adjusting the equipment.

If you're looking to take your workouts to the next level, this is the machine for you. It has multiple accessory and storage options, along with customizable colors and logos.

Specifications:

- 160x80x3mm column
- Fixation holes every 100mm
- Textured powder coating
- Extensible and configurable
- Requires screwing to the ground
