Ciclotte Marble

Crafted with unparalleled finesse, the Ciclotte Marble marks a groundbreaking entry into the world of luxury fitness equipment. It is the first model to incorporate high quality marble into its frame setting a new benchmark in the industry.

The design ethos of the Ciclotte Marble is rooted in minimalism and purity. Its contours and textures are distilled to their essence, creating a piece that is as much an art form as it is functional. The gleaming marble acts as a seamless link, uniting the various components of the bike in a display of elegant cohesion. This fusion represents a transformative moment in home fitness and underlines Ciclotte's commitment to creating unique, innovative products.

More than just a machine, the Ciclotte Marble is a testament to refined living. It blends effortlessly into any interior, be it a living room, office or home gym, serving as a functional sculpture. Its design excellence is matched by high-performance mechanics and advanced ergonomic research, ensuring a first-class exercise experience.

The Ciclotte Marble transcends the boundaries of traditional home fitness equipment. It embodies the modern lifestyle while retaining the robustness of professional gym equipment. The structure of the bike harmonises the natural elegance of marble with cutting-edge technology. Its mechanics are underpinned by extensive CX analysis, a gear multiplier transmission system and an electromagnetic resistance mechanism that replicates the sensation of cycling outdoors.

The experience of using the Ciclotte Marble is immersive and intense, enhanced by Bluetooth connectivity with smartphones and tablets. This feature allows users to simulate different cycling routes, participate in virtual spinning classes, engage in structured workouts, compete with others in a screen mirroring setup and access comprehensive workout data.

Ciclotte Marble is a rare blend of exceptional functionality and stunning aesthetics. Available in four exquisite marbles:

The serene Green Alps marble.

The pristine white Carrara marble, famous for its use in Michelangelo's David and Pietà.

Classic Yellow Travertine, as seen in the iconic Roman Colosseum and St Peter's Colonnade.

The richly coloured classic red travertine.
